## ***How to Designate Property for Computers for Learning***

***A walkthrough guide for Generators***

# Outline

- **Purpose**
- **Who is eligible for CFL?**
- **Types of Schools**
- **Turn-In Requirements**
- **Designation Overview**
- **Who can I Designate to?**
- **Step by Step process**
- **Points of Contact**

# Purpose

- The purpose of a Generator being able to designate property is to enhance the reutilization of excess computer equipment, improve the technological capabilities of the school or organization, and most importantly allow the Generating activity to assist their local community by designating the property to a local school or organization.

# Who is Eligible for CFL?

- Schools and education nonprofit organizations can participate in the DOD CFL program. A school is eligible to participate if it is a public, private or parochial school serving pre-kindergarten through grade 12 students.
- An educational nonprofit organization must meet three criteria in order to participate. First, it must serve pre-kindergarten through grade 12 students only. Second, it must be tax-exempt under section 501(c) of the U.S. tax code. Third, it must operate primarily for the purpose of education.

# Types of Schools

- Public Schools
  - Serving K-Grade 12
  - Accredited through the Department of Education
- Parochial/Private
  - Serving K-Grade 12
  - Accredited through the Department of Education
  - EUC required for DEMIL Q
- Educational Non-Profit
  - 501c3 non-profit organization
  - Must be educational institution serving K-Grade 12
  - EUC required for DEMIL Q

# Turn-In Requirements

- Computers are turned in to DLA Disposition Services as excess (either physically or as a receipt in place)
- Hard drives removed/degaussed as per DOD guidance. For Maximum Reutilization potential we strongly suggest that the hard drives are degaussed.  
<http://www.drms.dla.mil/turn-in/usable/cpu-turn-in-guide.pdf>
- Follow normal screening process
- Computers For Learning is a Special Program, and screens for property during the Reutilization Cycle, however, they are not allocated the property until the last day of the cycle.

# School Designation

- Generators can designate a specific school to receive their excess IT equipment
- Excess IT equipment must first be reported to your local DLA Disposition Services Field Activity. If your Activity has already selected a school or will be selecting a school, the Activity is encouraged to receive the items in place to ensure convenience for the school as well as condition of the equipment.
- Generating Activities that have contacted their local school districts and found local school partners can provide a variety of services that may include tutoring, installation and repair of equipment, as well as the transfer of computers and related equipment.

# Who can I designate to?

- You can designate to any school that is approved under the DOD Computers for Learning program and is currently in good standing.
- Generators can query the DOD CFL website to determine if schools in their vicinity are registered with the program.
- You can also confirm that the school is registered by talking with them directly or by asking the CFL office by emailing [DODCFL@dla.mil](mailto:DODCFL@dla.mil). They must have a valid username/DODAAC for the designation process to work.
- For Private and Non-Profit schools/Organizations they need to be approved and have a valid EUC in place to receive DMEIL Q computers. Public Schools do not need this document.

# Step by Step Guide

- The things you will need before beginning:
  - Your DODAAC
  - The username (DODAAC) of the schools/organizations that you want to designate to
- The next few slides will give you a step by step guide to designate property to a school/organization. Please use the text and pictures  to assist you. The 's' will point you to the next step in the process.

**Reminder** that a CFL Approved Public school can receive DEMIL A and Q computers. An approved Private or Non-Profit can receive DEMIL A and, if they have a valid EUC, DEMIL Q.

# Go to Website

- First go to the DOD CFL website at <https://www.drms.dla.mil/rtd03/cfl/index.shtml>
- Once at our site click on the **Turn-In/Generator information** link

**Department of Defense Computers For Learning Program**  
**Welcome to the Department of Defense (DOD) Computers for Learning (CFL) Program**

The DOD CFL program was created to provide useful IT equipment to schools and educational nonprofit organizations serving grades pre-K through 12. The DOD CFL program is designed to streamline the transfer of excess and surplus DOD IT equipment to schools.

The application process is simple, just apply on-line and submit a Memorandum of Agreement. In addition, Private and Parochial Schools and Non-Profit Educational Entities also need to complete and submit an End Use Certificate (EUC) and be approved through the Trade Security Control (TSC) Office.

**NOTE:** You must use Internet Explorer to complete the forms required for the CFL program

	<b>ABOUT DRMS</b>	<b>PUBLIC AFFAIRS</b>	<b>PUBLICATIONS</b>	<b>FAQS</b>
	<b>Department of Defense Computers For Learning Program</b>			
	<b>Turn-In / Generator Information</b>			
<b>DRMS Home</b>	Turn-In Activities can designate a specific school to receive their excess IT equipment.			
<b>CFL Home</b>	To learn more on " <a href="#">How To Designate Property For Computers For Learning</a> " review this Power Point presentation. It will provide you •Purpose •Who is eligible for CFL? •Types of Schools •Turn-In Requirements •Designation Overview •Who can I Designate to? •Step by Step process •Points of Contact			
<b>EO 12999</b>	Excess IT equipment must first be reported to your local DRMO. Turn-In Activities must ensure they follow the DOD guidelines for turning in IT equipment. This guidance can be found at: <a href="http://www.drms.dla.mil/turn-in/">http://www.drms.dla.mil/turn-in/</a> If your Activity has already selected a school or will be selecting a school, the Activity is encouraged to receive the items in place to ensure convenience for the school as well as condition of the equipment. Activities can query the DOD CFL website to determine if schools in their vicinity are registered with the program. The DOD CFL website facilitates the process of finding schools and educational nonprofit organizations with needs that match the Generating Activities' excess computer equipment. Generating Activities that have established partnership arrangement with schools in their vicinity should help those schools register on the DOD CFL website.			
<b>Eligibility/Information</b>	In addition, Activities that have contacted their local school districts and found local school partners can provide a variety of services that may include tutoring, installation and repair of equipment, as well as the transfer of computers and related equipment.
